It is said that some of the citizens of Arlington, are unfeeling enough to offer Fred C. Biebe \$200 if he will leave the town and never return.

Rev Father Dommeac gave his congregation some good advice on Sunday morning in regard to business on Sunday.

Let us all move together in the matter and before long Waconia's business men would have a day of rest like other white men.

Waconia correspondent in Carver Free Press uses some pretty strong language in regard to Swan Swanson bringing paupers with him to this country. We endorse every word.

Albert Kohler was in the cities last week on business connected with his recently granted patent. Success to him.

The bids for the building of three cisterns for the village were opened on Saturday evening & ranged from \$290 to \$400, for three. Mr Spies of Norwood being the lowest bidder.

Thomas Kohler goes to St Paul this week to learn the tinsers trade.

Peter Lindner has been spending all his spare time in improving and beautifying his Island home, until now it looks like a little paradise.

Mr Busch our popular merchant tailor, is making preparations to build on his corner.

Casper Vergunis called around last week with a broad smile on his face and said "Wir haben auch ein." It's a girl.

Carl Silz one of the solid farmers of Waconia also reports the arrival of a young lady in his family. If this thing keeps on there will be plenty applicants for the position of "census taker" in 1890.

Hon Adam Hill buried an eight months old child on Saturday.

A jolly boat load of young people of both sexes went on a spearfishing expedition one night during the last week but from the small catch (one minnow and one small sun fish) we fear they did not attend to business strictly. How it was.

L Naegle and family spent the Sabbath on Coney Island.

Agents for the different nurseries have been delivering their sales during the week. We hope that none of our citizens have been victimized.

April showers have been quite frequent of late, and the result is that vegetation is in full bloom.

Most of our villagers are busily engaged making gardens and clearing yards etc., which adds to beautify our village.

Miss Brannigan has started a millinery and dress making establishment in the Campbell block. Success!

August Moers, who has been in Austin, for about three weeks returned Saturday.

P. J. Breen, Fred Ackers and F. Fairbanks represented Watertown at the Teachers Institute at Norwood last week. They express themselves well pleased for attending.

Nease Warta & Yager are showing great enterprise by their energy in readying up their brick yard preparatory to making brick.

F. B. Halgren started on Monday for Dakota where he will teach school for the summer.

James Toole who was sent to the Insane Asylum a short time ago, was released on trial last week. He unfortunately got worse and was sent to St. Peter again.

There were 16 teachers at the examination held by Sup't. Bradley, last Friday at this place. Mr Bradley seems to have the qualities of a good Superintendent and is getting very popular in this section of the county.

Rumor has it that Celestine Kohler will buy S. B. Kohlers harness shop but the sale has not been made yet.

Unclaimed Letters.
The following are letters remaining unclaimed at this office, during the month of April.

WACONIA.

Who in the world has broken loose in Helvetia. All we can say to the worthy gentleman is that the majority of the people in this or in his vicinity do not think as he does in regard to the action of the Commissioners in changing the site of the Crow River bridge near Helvetia. We think it a shame for Watertown to have been so pusillanimous, but more so for our officials to uphold them in their meanness. We wonder how Hollywood enjoys the prospect. We hope the present board will have the power of acting on many more "bridge removal petitions" where bridges happen to be within a mile of a town line. We predict that the bridge will not be built unless Watertown can get the 500 dollars which Hon. G. G. Hahn secured from the state for bridges in that town. We understand that the damages for land and the cost of making the new road will be not less than 1000 dollars. How do the tax payers of the county and the towns interested like this?

Rev Father Dommeac gave his congregation some good advice on Sunday morning in regard to business on Sunday.

St. Paul held her city election for City Treasurer and Alderman and school Inspectors. The Knights of Labor supported the Republican nominees.

The first of May strikes, predicted for some time do not amount to much, after all. In Chicago they resulted in bloodshed, but everywhere else everything is quiet, and it is thought everything will be settled soon.

The examination for the West Point Cadetship, which will take place at Shakopee, May 11th, will be conducted by Hon. W. S. Pattee, Cham, Prof. E. A. Taylor, Chaska and Prof. Erickson, Red Wood Falls, Minn. Strait selected the Board, and made a good choice.

We are in receipt of the annual report of the Board of Railroad and Warehouse Commissioners of the State together with a new Railroad map in colors. We have not yet been able to look it over carefully, but are convinced from a cursory examination that it is a valuable work of reference. We will refer to it as soon as we have examined it carefully.

Watertown.

Boylan & Halgren's new machine warehouse is completed.

Kalsomining and house cleaning is well under way.

Krouse & Truwe have erected a warehouse for machinery, next to their hardware store.

April showers have been quite frequent of late, and the result is that vegetation is in full bloom.

Most of our villagers are busily engaged making gardens and clearing yards etc., which adds to beautify our village.

CHASEKA, MINNESOTA.

It is now thought congress will not adjourn before the first of August. If hot weather comes in May and June the situation is liable to a sudden change.

The latest reports from the spring wheat sections are very favorable, especially in Wisconsin, Iowa, Nebraska, Minnesota and Dakota. The indications are for slightly decreased acreage in Wisconsin and Minnesota, and a considerable increase in Dakota. The reports from some of the winter wheat states are anything but favorable.

The tide of emigration from Germany, which has been ebbing for some years, showed the greatest proportion falling off in the year 1885. According to statistics lately gathered, the number of Germans leaving in 1885 by the chief ports, Hamburg, Bremen and Stettin, was but little more than half the number for the year 1882.

In two respects the delegation from Philadelphia is the most remarkable in Congress. Every one of the five members for that city was born within its limits, and no other five members have served so long. The aggregate continuous service of the Philadelphia representatives will be at the expiration of this Congress ninety-six years, or an average of nineteen and one-half years each.

Gov. Alger of Michigan is becoming more and more convinced that it is not the wonderfully gifted or remarkably brilliant men of our times who are the safest men to entrust with executive power and functions. The safest men for this country are those who are looked upon as having moderation, but who are capable of exercising their talents in whatever station they are placed.

For several months past the socialistic element in Milwaukee has been endeavoring to make itself conspicuous, but without eminent success. The Knights of Labor, with which it sought to associate itself, frowned it down and rejected all advances looking to anything like alliance or union. In spite of this, the leaders have kept on their organization and it is reported have bought some two thousand muskets and a considerable amount of ammunition. They have created some alarm among timid people.

Scribner's Statistical Atlas, edited by Fletcher W. Heves, a very high authority, calculates the real estate of the country at 77.13 per cent. of the whole assessed value and personal property at 22.87 per cent., upon the basis of the census report of 1880. Commenting thereupon he says: "The low valuation of the latter illustrates the tendency of this class of property to escape taxation, through one means or another, as it is well known that, taking the country as a whole, the proportions of the two classes of property are in reality nearly equal."

The United States consul at Stuttgart, Germany, who has just arrived home, says both the government and people of Germany are friendly to the United States, but not toward Germans who, they think, have become naturalized American citizens in order to escape military duty at home. This question makes more or less trouble constantly. Bisparck is the ruler of Germany, and all the talk about his not being popular with the people is a mistake idea. The emperor is the God of the people; they simply adore him. The adoration, is not demonstrative, but it is there, and it is decidedly genuine. There is little hope for American manufacturers in Germany. The farms are so small and the work so almost entirely done by women by hand, that there is little need for our agricultural implements. The men are employed in the stores and factories, and the women do the farm work, using cows, instead of horses and oxen.

The recent destructive cyclone in Minnesota has called attention to itself, not generally known, that the Signal service has been for several years engaged in a study of the phenomenon of the cyclone, with the view of predicting whether or not an approaching storm is likely to be accompanied by a destructive wind. Lieutenant Finley had had charge of these investigations, and has gathered all the data extant regarding tornadoes which have occurred in the United States since 1794. From that date until 1881, he found records of six hundred such storms. Since 1881 he has been able to obtain much more complete information, and has recorded nearly seven hundred tornadoes in the past five years. The large majority of these storms since 1881 occurred west of the Ohio river, while of those recorded previous to that time, twenty-four occurred in the New England States, twenty-five in New York, and eighteen in Pennsylvania. In the same time there were sixty-two in Kansas, fifty-three in Illinois, forty-three in Missouri, thirty-two in Iowa, and twenty-two in Minnesota. Of course the record from 1796 to 1881 is very incomplete, especially in the Western States, as it embraces a period anterior to their settlement by the white. Enough is known, however, to show that the Mississippi Valley, particularly the northern portion, is peculiarly the cyclone region. Lieutenant Finley made a number of successful predictions regarding the approach of cyclones in 1884 and 1885, and is confident of ultimately reducing such prognostication to a science.

The president nominated Frank Brown, postmaster of Baltimore, vice J. Parker Veevey, resigned. The nomination is said to be unfairly received in Baltimore. Mr. Veevey had proposed to resign at the end of his term, but he has not done so since he became president, and an attempt to pass the bill which provided for the dismission of his predecessor was withdrawn. The president has asked the Senate to accept his resignation. The Senate has continued to hold it over.

The president has received a commission from President Cleveland to visit Europe, and prepare report on the state of railway legislation in the Western European states. During his tour he will call on the New York chamber of commerce in the railroad section, and on the various railroads of the present New York railroad commission. Since then Mr. Stern has continued to hold it over.

The president has made it clear that he is not being popular with the people, and the work is a mistake idea. The emperor is the God of the people; they simply adore him. The adoration, is not demonstrative, but it is there, and it is decidedly genuine. There is little hope for American manufacturers in Germany. The farms are so small and the work so almost entirely done by women by hand, that there is little need for our agricultural implements. The men are employed in the stores and factories, and the women do the farm work, using cows, instead of horses and oxen.

REVELATIONS OF CRIME.

Heads of the Kansayoh County Criminal Enterprise, Makes a Full Confession in Prison.

WILLMAR, April 29.—Senator Rice and County Attorney Quist returned this morning from Stillwater with the confession of John L. Johnson, a fugitive from this county, who was sentenced last December to seven years' imprisonment after he had been tried for having looted the treasury of \$30,000 and forged last. The confession is sworn to, and was made to the two parties and Hultgren, a bill to the state, and John Reed. He gives the following details:

The outside vaults were open (locked) and the inside safe was broken. The combination I opened by the combination. I had only some matches. It was between 11 and 12 at night. I took the hard money, not the gold, from home, as the gold money was in the safe. I took some stones, I put the money into a tin can and buried it in the ground about half a mile west of the house in the pasture, the house into which I went to went to bed. I went to town next morning and attended to my business. On Sunday morning I went to the house to the husband and talked about the robbery. At 10 o'clock that night I went to the hard money and found out that the money was not there. I went out and wanted to get it, but could not. I went out again and I had to leave the house. I turned again and made up my mind to skip. I went out to the prairie. I took the money to the post office and threw it into the trough. The trough—more than \$400 or \$500 in silver, I guess, up to the top. I was detected, and dropped it loosely into the water. I estimated it to be about \$500, mostly in gold. I took the money to the post office and found it all except the package, which was gone. I estimate it at about \$100,000. The group leaders had a meeting at the same place, about five rods apart. I believe that the amount taken from them was about \$40 or \$50 in silver, as I guess, up to the top. I was detected, and dropped it loosely into the water. I estimated it to be about \$500, mostly in gold. I took the money to the post office and found it all except the package, which was gone. I estimate it at about \$100,000. PROCEEDINGS OF CONGRESS.

SENATE. Testimony taken by a committee of the Ohio legislature in their investigation implicating Senator Payne of that state, was laid before the senate. Mr. Payne, in a speech, denied that he had been in communication with the committee, and maintained that he had been already completely exonerated from any impropriety in connection with his election to the senate. The majority and minority reports were referred to the committee on the subject. The bill, however, was agreed that this is the end of the matter. The bill providing for an extension of the executive mansion passed.

The interstate commerce bill was taken up. The pending question was on Mr. Clegg's proposal to submit to the committee "from the same point of departure" from the long and short haul clause of the bill.

Mr. Clegg denied the subject of long and short haul a good deal of consideration, but had not had time to go into it fully.

Mr. Clegg also had not gone in that matter. No country in the world had an absolute long and short haul law for railroads. In this country, however, a belief that the short haul people were swindled in order to make up for losses on the long haul, had led to the proposal that as such, were a law should be passed.

Mr. Clegg said that in this case, it was the committee's duty to prevent the possibility of the railroads recuperating themselves out of the short haul people for losses on the long haul. He had been able to bring their judgment to the conclusion that it would be wise to insist that the railroads' net should be greater than for short haul, for long haul.

And truly Mr. James Boldon's position was not a happy one. He was a young man, lately admitted as a solicitor, and he had spent all his little capital to no purpose in trying to make a practice for himself in the town of Westborough.

The house committee on military affairs reported a bill to authorize the president to confer brevet rank on army officers for gallant service in Indian campaigns.

The house judiciary committee reported adversely on a bill to prohibit railroads from entering the growing lands in the United States. A minority report in favor of the bill was submitted by Messrs. Gates of Albany and Bissell.

Mr. Mitchell, in support of their views, referred to the case of Mr. Scully, who resided in England, and a British subject, and whose wife and two children were brought to the United States by him.

Mr. Mitchell said that the wife had been able to bring their judgment to the conclusion that it would be wise to insist that the railroads' net should be greater than for short haul, for long haul.

And truly Mr. James Boldon's position was not a happy one. He was a young man, lately admitted as a solicitor, and he had spent all his little capital to no purpose in trying to make a practice for himself in the town of Westborough.

He was almost a stranger in the town, and, although he had been there nearly a year, he had hardly succeeded in making an acquaintance, much less in gaining clients. The report that he had been a solicitor in the United States, and in support of their views, referred to the case of Mr. Scully, who resided in England, and a British subject, and whose wife and two children were brought to the United States by him.

Mr. Mitchell said that the wife had been able to bring their judgment to the conclusion that it would be wise to insist that the railroads' net should be greater than for short haul, for long haul.

And truly Mr. James Boldon's position was not a happy one. He was a young man, lately admitted as a solicitor, and he had spent all his little capital to no purpose in trying to make a practice for himself in the town of Westborough.

He was indeed, one man who knew him, and he had a considerable amount of business, whatever he had, and any business, whatever he had, was a useful friend—Mr. Lionel Wynn, editor of the Westborough Independent. The young lawyer had made the acquaintance of Mr. Wynn, and the latter had been a useful friend, and warned senators on both sides of the chamber that he would press this bill, and that they were to take no square deal, and not to be swindled out of their money.

A bill was reported to the ways and means committee authorizing the treasury to exempt all distilled liquors from the excise tax for 100 days from maintaining stockkeepers and gaugers. It also authorizes the secretary to designate special warehouses for distilled malt liquors. The capacity is less than twenty-five gallons.

SENATE. Mr. Mitchell spoke on the measure submitted by the conference of the New York Methodist Episcopal Church, and the General Conference in the United States. He criticized the committee on foreign relations for not having yet referred the bill to the committee of the whole. But of what that was it to have the means of getting a flattering notice in the newspaper, when there was absolutely nothing to notice?

At 12 o'clock, Mr. James Boldon and his wife looked over his shoulder, and even his sanguine disposition failed him, as he marked the state of things there disclosed. He rose from the table with a groan, put on his hat, and, telling his solitary officer (who was as impulsive as a boy), by asking him to boil the rest of his desk, that he would not be in till after lunch, he sauntered forth into the street.

Not having any particular object in view, he thought he might as well go to the railway station and get a London paper, and, thither he directed his steps.

After buying his paper, Boldon observed on the platform the station-master, and his wife, who had been to the station to make arrangements for five years, with the steamship companies upon the basis of the number of passengers.

It was at present, a secret remained in secret session about an hour, a considerable amount of time, and the committee on foreign relations were confirmed. Mr. Edmunds for a time insisted upon the reading of the bill, and Mr. Plumb called attention to the routine character of the discussion, and made some objection against the unnecessary waste of time each needed for the consideration of legislative measures. Thereafter no more reports were made.

HOUSE. The house committee on agriculture reported an elaborate bill providing for placing the agricultural and sanitary departments under the direction of the internal revenue department. This measure had not been introduced, and it was not known whether the bill had been introduced.

It imposes a special tax upon all manufacturers of oleomargarine of \$600 per annum, wholesale dealers \$100, and retail dealers \$50, for the use of the same, and those now used for manufacturing tobacco, Herny penalties are imposed for any violation of the law.

is being laid down this spring.
Geo. A. DuToit leading with a new
walk in front of his premises.

Fred Iltis completed a hand some
row boat for Mr. Broom of Chan-
hassen, last week. It will be placed
on Rileys Lake.

The Homeopathic Society of Car-
ver Co., will meet at the residence
of Henry Siebou's, Benton, on the
second Sunday in May.

Geo. A. DuToit, is having his
house repainted throughout,
both inside and out. Louis Moesch-
ler, is the artist.

John Huntsmann of Shakopee, is
selling machinery for Philip Henk,
and is meeting with good success.
He is a No 1 agent.

A. L. Skoog, J. S. Nelson, F.
Wommer and other prominent
Carverites, were in town on Satur-
day last.

J. B. Schwab and H. Julien, of
Minneapolis, were in attendance at
the Concordia concert Easter Mon-
day, and also calling on relatives
and old friends.

Gravel cross walks will hereafter
be laid in Chaska instead of planks.
They are not only better, but much
cheaper for the village. It's time
to exercise economy.

We understand that Charley
Ramsdill, has rented the Commercial
Hotel, and will open the same to
the public soon. He will add a
sample room to the establishment.

Mr. & Mrs. Joseph Kehler, of
Jordan, attended the concert on
Monday evening, and Mrs. Kehler visit-
ed her parents at the same time,
returning home Sunday.

Co. Supt. Brady, was in town
last week, and we had the pleasure
of a few moment conversation with
him. He reported the Institute a
success.

We have added 24 pairs up sub-
scribers to our subscription list
within the past three weeks. We
hope to reach the full 1000 mark
before the end of the year.

Fred Degen, is the lucky one this
time, and he seems to be several
inches taller when called father.
It's a boy and arrived Saturday.
We extend our congratulations.

L. A. Clapp, an old citizen of
Chaska, but for the last ten years
at Grand Rapids, Michigan, was in
town last week visiting old friends.
We are pleased to hear that he in-
tends locating again in St Paul.

Peter Iltis, Pres.
FRANK WARREN, Sec.

We call the attention of our
readers to the add. of Peter Iltis, ad-
ministrator of the estate of his father,
or, relating to the sale of Real es-
tate. Read it over.

G. Trick and Chas. Stender, as-
sociates of Young America and Cam-
den respectively, called in to see the HERALD, while
in town Apr. 24. Come oftener,
Gents.

Our brick yards are having a
hard time of it, they were compelled to
suspend work several days last
week, owing to the rain. Some
damages resulting from the filling
up of the clay hole with water.

The cellar and foundation for
Simons new brick building is com-
pleted and the masons will com-
mence laying brick next week.
The building will be 2 story 29x50,
square front.

The many friends of Adam Hill
and family, extend them their
heartfelt sympathy over the loss of
a bright son, eight months old,
which they buried at Waconia on
Saturday.

We are pleased to learn that
Carl Silz, family of Waconia, has
been blessed with the addition of
a young daughter. We extend
our best wishes.

Joseph Franken City Drug Store,
has just finished taking an in-
ventory of his stock, and has added a
lot of attractions since. If you
wish to see a nice store and goods,
and cheap prices call and see.

We copy the following item re-
garding Mr. Baldwin, one of the
proprietors of the new Drug Store,
from the Atwater Press, viz:

W. Baldwin & Co. have con-
cluded that there is more money in
an other place, for them, and have
packed their entire stock, and loaded
it upon the cars, and before another
week, has passed will be in Chaska.
Mr. Baldwin is a young man of
good character and superior business
ability, a good druggist, reliable and
honest. Chaska is to be con-
gratulated.

We regret to lose him from our
midst, but what we lose is their
gain: And such is life.

F. J. STEIDL, Agent.

Firemen's Ball.

A Grand Ball will be given by
the Chaska Hook and Ladder Co.,
on Pentecost Monday June 14th.
The Ball to be given by the H & L
Co., is for the purpose of raising
money for new uniforms. Every
body should turn out and give them
a benefit.

Death of Mrs. Otto Herrean.

Mrs. Otto Herrean, sister of Fred
Kosuth Oberle, died at her
home in Nobles County, on Sat-
urday, April 24th, aged 39 years. She
had been sick for a number of years
with consumption, and her death
was not unexpected. She was an
amiable, lady, and had many old
friends in this County, who will
deeply mourn her death.

Machine Shop & Foundry.

Joseph Ess, has concluded ar-
rangements to build a Machine
shop and Foundry on his property
in this village as soon as the plans
for the building are completed.
Mr. Ess is a first class mechanic
himself, and will employ none but
first class workmen, consequently
the people of this County may ex-
pect an establishment that will
fill a want long felt in this vicinity.
We will speak of this project more
at length as soon as the plans are
completed.

Farm For Sale.

The "Old Fisher" place near
Waconia containing 156 acres, about
60 acres under plow balance all
fenced in, good meadow and pas-
ture. For prices and terms call on
the premises or at Farmers Bank.

Grand Ball.

A grand ball will be given at Au-
gusta Hall May 8th, 1886 by the
Augusta String Band. All who
wish a good time should attend.

The Committee.

Meeting of the Carver County

Agricultural Society.

The executive committee and
Board of Directors of the Carver
County Agricultural Society, are
hereby notified that pursuant to
the Constitution of said society,
there will be a meeting held at the

City Hall at Chaska, on Thursday

the 13th day of May 1886, at 10
o'clock in the forenoon for the fol-
lowing purposes, to wit;

1. To establish a list of premi-
ums to be awarded at the next fair.

2. To fix up a place where said
fair shall be held.

3. To adopt rules for the gov-
ernment of the fair.

4. To transact such other busi-
ness as may come before the meet-
ing.

Farmers will further take notice
that Mr. Finnegan will not be un-
derhauled by any machine company in
the State of Minnesota, in anything
in the machine line, or in binding
twine or the quality of the same.

P. H. FINNEGAN.

Mr. C. Mounia Killed.
Mr. C. Mounia, of Louisville,
Scott County, and father of the
Mounia Brothers, was struck by
an Engine on the Minneapolis
Railroad track just this side of
Carver on Monday afternoon and
killed, living but a few moments
after being struck. He was hard
of hearing and probably did not
hear the signal to clear the track.
He was upwards of 80 years of age
and well known and highly esteemed
young lady, with many friends in this
community.

To Whom it may Concern.
Having read a marriage notice in the
Weekly "Valley Herald," issue of April
8th 1886, stating that August Classen
was said to have been married to Miss
Agnes Splettoeser, I wish to distinctly
notify the public that no such wedding
ever took place, and moreover was never
thought about by the lady in question.
It was a false report and done with the
intention to injure Miss Splettoeser who is
a well known and highly esteemed
young lady, with many friends in this
community.

Mr. Envor. I take this method of
making known, that I will pay a liberal
reward to any person who will inform me
who was the

For foreign news look over the
inside pages of the HERALD this
week.

JEFF Davis, the late Plaine
of the defunct confederacy, is surely in
his dotage, if we judge by his re
marks delivered at different places
during his recent tournament to
the leading cities of the Gulf States.
He should have been hung at the
close of the war along side of Wirtz
of Andersonville notoriety. But such
are the ways of the politicians.

The editor of the Belle Plaine
Herald uses some very severe and
undignified language, towards Senator
Peek of that County, in its issue.

It is very seldom that

anything is gained by adopting such a
course, and the Herald may yet
regret attacking the Senator in that
manner.

CONGRESSMAN STRAIT, has auth
orized the editor of the Glencoe Reg
ister, to announce, by authority, that he will not be a candidate for
renomination to Congress from the
3d District this fall. The Major
has been a faithful representative
of the people, during his twelve
years term in Congress and will re
tire to private life with the respect
of both parties.

HON. CUSH K. DAVIS, is either an
unfortunate politician or a poor
prophet. We notice that every
time that he steps into the field in
support of the republican ticket in
St Paul, the ticket is bound to be
snowed under—buried out of sight.
In that respect he can be likened to
the Hon Ignatius. Hereafter
Cush will have to keep still or the
Senatorial Toga will never grace
his shoulders.

Cologne.

We are getting too much of the good
rain just now.

Farmers are all busy planting corn.

Mr Burfield the Photographer has his
gallery completed and those wishing a
good photograph, should not fail to call
on him, he will stay with us all summer.

JACOB MEYERSEN has been on the sick
list for the last two weeks, but he will
soon be alright again.

At a spree at L. Zinkens place Mr. Grens
was knocked on the head with a beer
glass in the hands of Peter Smeets which
will lay him up for a week.

MR. PAIN is the new operator, he having
moved his family here from Hopkins.

WHITE LUCA DULS was driving home
one day last week and while going down
hill the wagon tongue slipped from the
yoke, this frightened his horses and they
ran away throwing Lucas about 15 feet
up in the air and as he was not a very light
man he did not come down very easy. At
first it was thought that he would not
live but we have been informed by Dr.
Ryde that he will get him through all
right.

The masons are at work on the foun
dation of Peter Warmer's dwelling.

The crew on the Railroad Ditcher at
work between Minneapolis and Glencoe
are stopping here at present.

HOME AND COUNTY NEWS.

Its

Corn

Planting season.

The river is unusually high.

If you want a lightning rod go to Fred Ulis, Chaska.

James F. Dilley is keeping a boarding house in St. Paul.

Window shades at the New Drug store, Baldwin & Co.

Chas. Ramsdell has moved into the Commercial Hotel, and is now landlord.

Read add of Mr. Henk in another column. He means business this season.

Blank books at the New Drug & Book store

W. Baldwin & Co.

Several of our old pioneer citizens and others, attended the funeral of Xavier Vogel at Victoria on Tuesday.

John Etzell has fixed up his bar room in first class style. He has one of the neatest saloons in town.

We call attention to the notice of Sheriff sale, of Engine and Separators at Young America, on Thursday May 20. Sale positive.

Business has been dull in Chaska for the past two weeks: Farmers are busy on the farm, which accounts for it.

An immense stock of new and latest designs of Wall Paper at W. Baldwin & Co.'s, Drug store.

Martin Van Sloun, has renovated his saloon in fine style. The room has been papered throughout and the Bar moved to a more convenient place. Call and see.

The fishing season is at hand, a complete outfit for lake fishing for small money at the "old drug store."

For screen doors, windows, wall paper, curtains &c, cheap call on Van Sloun & Hilgers.

Get your Mixed Paints at W. Baldwin & Co.'s, Drug and Book store next door to Hartmann & Melvin's.

The fishing season will commence actively about the last of this week.

Parties were out the past week, but report the attempt a "little too previous."

Fred Wiest, residing on a farm near New Rome, Sibley County, and a brother of Andrew and George Wiest of this village, had a barn demolished by a recent wind storm.

Take your prescriptions to W. Baldwin & Co.'s, New Drug store, prepared to fill the best and night.

Michael Hesse, an old settler of Benton, left Cologne on Friday, with his family and effects, for Forest Prairie Meeker Co., which will be his home hereafter. His many friends in this County wish him success.

J. Beierstette has received another lot of children express wagons direct from the factory which will be sold at city prices.

The mortgage sale of Vilseuer farm Benton, having been postponed, will take place on Saturday May 22d, 1886. This is a valuable farm and is a good chance for investment.

We are pleased to inform Capt. Muelhberg, that we hope the Capt. of the Alvira will call on us when in Chaska, we never desert our post; our latch string is always out, for the erring as well as for the good. Come in.

A new glass or open front is being put into the place of the present front in the Washington House and the building will be repainted on the outside and remodeled, papered and painted inside, and when completed Mr. Rosbach will have the finest Saloon and Billiard Hall in the village.

Mr. L. Diacon, our old Jeweler, is having a new glass front put into his building with recess windows, and when completed he will make the finest display of silver and Jewelry ever exhibited in this County.

Awarded the Contract.

John Geiser, of this village, has been awarded the contract to build the new Catholic Church, Winona McLeod Co., furnishing all the material for \$14,000. He has one year time in which to have the building completed. We can assure our Winona friends that Mr. Geiser, is the "boss" Church builder in the State and they can look for an extra good job.

This brewery has been enlarged and new machinery added to the establishment making it one of the best inland breweries of the state. All orders for beer promptly filled and satisfaction guaranteed.

Give us a trial.

We are pleased to learn that our sash factory has already received a large number of orders for work, and that the machinery works No 1. Chaska can feel proud of having a factory of this kind in town. It will employ six or eight hands this season and twelve to fifteen next.

The largest and nicest assortment of bird cages can be found at J. Beierstette's variety store. Also flower pots and hanging vases of all kinds cheap for cash.

Girl Wanted—A good girl for general house work, can find employment with good wages by inquiring of

G. KRAYENDUHL.

Farm Notes.
This is favorable weather for small grain.

There is a decrease in the area of wheat this season in this County, a move in the right direction.

Wheat fields in this vicinity are looking splendidly. The grain already covers the ground, and has a good healthy look.

Corn planting commenced actively this week. A considerable quantity is already planted.

Farm For Sale.
The "Old Fisher" place near Waconia containing 156 acres, about 60 acres under plow balance all fenced in, good meadow and pasture. For prices and terms call on the premises or at Farmers Bank.

The Farm, Stock & Home.

All persons who have ordered the Farm, Stock & Home of Minneapolis, and have paid for the same at club rates with the HERALD, and who do not receive the paper regularly, will please report at this office, and we will have it corrected at once, and proper credit given for missing numbers. We have reported a number of complaints to that office, and the manager promises to be punctual and correct hereafter.

Firemen's Ball.

A Grand Ball will be given by the Chaska Hook and Ladder Co., on Peacock Monday June 14th.

The Ball to be given by the H. & L. Co., is for the purpose of raising money for new uniforms. Every body should turn out and give them a benefit. There will be a Street Parade by the Company in the afternoon.

Died.

At the residence of his son-in-law Leonard Huitinkers, in the town of Chanhausen, on Wednesday, May 5th 1886, Xavier Vogel, aged 73 years.

Mr. Vogel had been a resident of this County for over 25 years, and was held in high esteem by all who knew him. He had been a great sufferer, having been confined to his bed for a year or more, and while uncomplaining and even cheerful at times, death must be a welcome messenger.

W. J. McLeod, an old teacher of Carver Co., was in town a few days last week. Mr. McLeod has just returned from Ann Arbor where he has been studying law for the past year.

SPACEDING the Wright County
murderer, was sentenced by Judge
Lochren, at Minneapolis on Satu-
day to the State Prison for the term
of five years. A light sentence con-
sidering that a former Jury found
him guilty of Murder.

Hon. Wm Campbell, was finally
confirmed as U. S. Marshal in
place of Marshal Denny, last week
and will probably assume the duties
of the office on the first of June.

Marshal Denny leaves a good re-
cord behind him, and it will tax

Mr. Campbell to fill the place
creditably as Mr. Denny has.

The Carver Free Press, in its
last issue, formerly trots out the
name of John D. Denny for Congress from the
3d district. Mr. Denny is U. S. Marshal, and a prominent repub-
lican politician of the State, and
undoubtedly has many friends
throughout the district; but we
rather think Rice or Goodwin Com-
munity will capture the coveted
position. However, Mr. D., would
make a strong candidate.

Watertown.

Corn planting is well under way.

The weather is fine and small grain is
doing nicely.

Our streets are being cleaned up in good
shape under the supervision of street
commissioner W. E. Jays.

Br. J. H. Frank is now occupying of-
fices rooms in the Yager block.

A new crossing is being put in from
the drug store to Zegers hotel which will
be appreciated by our pedestrians.

Attorney W. E. Cuklin of Waverly
was in town in town Friday on legal busi-
ness.

E. F. Burns and J. W. Craven were in
town last Monday. They will probably
be looking for legislative hours next fall.

Warts & Yager have everything in fine
shape at their brick yard and are getting
ready to burn their first kiln which
promises to be good.

W. J. Welch of Waverly made our
village a call last Friday.

Preparations are being made by our
people to turn out in large numbers on
Decoration Day which will be observed
this year on Monday the 31st May. The
school children and school main's will
take a part probably next in importance
to the G. A. R.

Last Monday was fair day and about
200 head of cattle were sold. A heavy
rain in the afternoon scattered the crowd
quite early.

George Schaffel moved last Monday in-
to the house lately vacated by Oscar
Krause.

Several scholars of the "A" class in our
public school were successful candidates at
the teacher's examination held here
lately. We are glad that the Watertown
school has regained her former standing
and now we call the mother of school

CHASE, MINNESOTA

The two revivalists, Jones and Small, are reported as preparing to lay siege to Washington next autumn.

The supreme court of Massachusetts, at its May sitting, had the largest list of divorce cases ever made up in that commonwealth, numbering 234 in all.

The supreme court of New York has denied the application of Miss Kate Stoenmer for admission to the bar, and holds that women cannot practice in the courts of the state.

A death is reported at Pittsburgh, the cause assigned being by the bright he received while undergoing initiation ceremonies on the entrance to a local court of "Foresters," a secret order.

The board of directors of the Chicago board of trade adopted resolutions opposing the bill pending in congress to tax cattlemen, or butchers, on the ground that it would entail a loss of millions of dollars to stock raisers, the demand for butchering having increased the value of cattle. The resolutions command bogs butter as an economical substitute for the genuine article.

The French papers give an account of a vegetable material which, they claim, will eventually prove an excellent substitute for wool. They name it berandine, and if any importance is to be attached to the thesaurus with which they speak of it, France will soon be providing the world with berandine garments, at less than half the cost of the all-wool raiment, now so highly prized.

A prospect of very active railroad building exists at the west, where five leading corporations have already projected 3,000 miles of branches, extensions and leaders, to be built within the next eighteen months. These are some of the cases of hopefulness which occur in the midst of the prevailing depression, and would impart considerable stimulus to trade were the labor trouble once out of the way.

The city of Guatemala contains 60,000 inhabitants. Last winter a French opera troupe played a two months' engagement to crowded houses every night. This single fact shows that the Central American cities are not very far behind ours. Guatemalans have electric lights, telephones, and good hotels. Theatres of Mexico, Central America and South America are rapidly wheeling into line with the cities of the United States.

Washington City is growing almost as rapidly as any commercial city in the country. It is now decided to extend its corporate limits very greatly to the north, to take in a populous suburb which requires the presence of street improvements and police protection. The strictly business increase, however, does not keep pace with the increase of population. The numerous attractions of the national capital claim a large number of people and will continue to do so.

Dr. Billings, surgeon of the United States army, has been furnishing documentary evidence of the health of this country. In his report for the tenth census he informs us that the annual increase in population due to the excess of births over deaths is 878,522, and that the mean annual birth rate for the past ten years has been 36 per cent. With children coming at the rate of nearly 1,000,000 a year, the prospect is that the vacant lands of the West will be rapidly filled up.

Kansas had a queer provision on its state book, which has seemed practically to postpone hanging. The murderer is condemned to an indefinite imprisonment in the penitentiary, the governor being given the right to hang him whenever he chooses. The whole responsibility for hanging is thus thrown on the latter's shoulders. Governor after Governor has refused to accept this responsibility and passed the murderers over to his successor. There are forty-one of them now in the penitentiary awaiting punishment and who can be hung any day the Governor chooses.

The report on vital statistics for the census of 1880, although just completed, presents some matters of interest. A table is given of fifty principal cities of the Union, showing the greatest number of deaths from specified causes for every 10,000 inhabitants. Excluding immigration, the mean increase of population yearly for ten years by the excess of births over deaths was 878,522. The mean annual birth rate for the United States is given as thirty-six per 1,000. The death rate is shown to have been higher in the colored than in the white population, in the foreign element than in the white of American parentage, in the cities than in the rural districts.

Dr. Pallen, a well-known western physician, is of the opinion that the practice of medicine will be revolutionized within the next few years. We will live, he says, to see the student and successful practitioner of to-day retire altogether from the actual practice of medicine and establish himself as a consulting physician only. The learned surgeon or physician of the future will give his time and attention to the prevention rather than to the cure of disease. It is no great trick to learn to set a fractured bone or prescribe a dose of salts. Such things will be relegated to a class of practitioners on a par with what are now called nurses. Hygiene and sanitation will be the study of the physician of the future.

PROCEEDINGS OF CONGRESS.

LYRIC FROM THE GERMAN.

Senate.—The senate passed the general service pension bill, which was introduced by Senator Collier in the last congress, and passed the senate, and is now in the house. On the final passage the vote was 3-2-14: eight Democrats—Brown, George, T. C. and W. W. and G. C. who were co-sponsors, and Lyons and Gilmer, who were voting in the affirmative. The bill, as amended, increases the pension of Senator Dibbins from \$4 a month to the minimum position. At present there are men drawing pensions of \$1, \$2, and \$3 per month. The bill does not affect a single man, therefore there was no use in giving a man any pension unless he at least \$4 a year. The bill now goes to the house, where it will be voted on.

Mr. Logan presented in the senate a substitute for the house arbitration bill a measure which provides for a commission to be appointed by the president and by the advice and consent of the senate, to consist of five members, to be selected from the Democratic organization, one from the Democratic organization, one who is not recognized as a member of either of the two parties, one from a class of citizens experienced in the management and operation of railroads and in the business of carrying passengers, and in the employ, connected with or interested in any railroad corporation or company engaged in any business connected with railroads, property, or property, and one who is identified especially with the laboring classes, having full knowledge of the conditions and employments of the laboring people.

House.—The house committee on public lands reported a general bill repealing all laws relating to certain lands of railroads, and restoring such lands to the public domain. The bill was reported for the committee on the state of the union, and then referred and still pending before the committee on the state of the union upon the bill of present congress. The bill repeals all laws now in force granting lands to the following corporations.

Sixty.—Nearly a whole day was given up to a discussion of the State Land (No. V.) bill, a measure in the interest of the bill of the Republic of Ireland, which seeks to gain entrance to New York city by means of a bridge, the erection of which is left to the bill authorizes. The measure passed.

Houses.—The senate subsidy amendment to the bill for the appropriation bill was non-passed in the house by a vote of 178 to 80. The result of the vote was a complete surprise to both sides. The highest estimate of the probability of a bill of this kind was made by the amendment's friends concealed twenty majority against the subsidy, and had their predictions been verified, the bill would not have been introduced.

The hope, however, was slowly

turning to certain disappointment, when the parson wailed all doubt by remarking:

"Well, if you're hungry, go to the kitchen, there is plenty there."

Brinkerhoff, with his fat finger, and preceded Springer, after the number of an Earl in advance of a

Speaker told him listlessly that he

had shown him the door to the street, as he was going to the kitchen.

"Our kitchen ain't to be scorned," said Dibbins.

"It ain't a bad place to get

the single male basis to get over

the porch and into the street be-

low, thinking of the stark form at

the door, and that Glad Mary Ann was in

a world where human hurts and dis-

appointments made no difference.

call on the house to appropriate

the bill to the bill of the Republi-

cans, and 60 democrats. The senti-

ment of the house as expressed in this vote is so overwhelmingly against the subsidy that it can only be expected to result in the same result.
